The Exhaust Pipe Extension Joint is used to extend the flue pipe easily and correctly. This accessory is required for indoor installations and outdoor installations if the exhaust gas needs to be led to a specific location.

### CHP Basic Flow

### Notes:

Install the Exhaust Pipe Extension Kit following the instructions in the installation work manual.

Install Drain Filter DFB19E since the amount of exhaust drain water increases as the length of the exhaust pipe becomes longer.

NOTE: Due to YANMAR's ongoing commitment to quality, specifications, ratings and dimensions subject to change without notice. Improper installation, adjustment, alteration, service or maintenance can cause property damage or personal injury. Installation and service must be in accordance with current specifications, ratings and dimensions and be performed by a qualified installer and servicing agency.
